DECOTO MAN SHOT DOWN

JOE LOPEZ MURDERED IN FRONT
OF POOL ROOM; TWO
MEN SOUGHT

A feud of long standing burst into flame in Decoto Sunday night when Joe Lopez, Mexican laborer, was shot down in cold blood in front of a pool room and the murderers escaped in an automobile under a hail of lead from guns in the hands of the slain man's friends.

Constables Tom Silva and Manuel Bernardo, aided by Deputy Sheriffs Jack Collier and W. L. Davis, are combing the surrounding territory for Daniel Guerera and Ramon Cabrera who are wanted in connection with the shooting.

Lopez was believed by Guerera to have been responsible for his arrest following a shooting affair in Alvarado more than a year ago. Since that time "bad blood" was said to have existed between the two men.

Sunday night, Guerera and Cabrera entered the pool room and started an argument with Lopez. The latter's friends interfered and Lopez was followed out of the building by his antagonist. A few moments later a series of shots were heard outside. Lopez was dead, two bullets having entered his head and two others striking him in the chest.

Indications that the feud was expected to flame up were found by the deputy sheriffs who claim to have found a machine gun, similar to the ones used in Chicago gang warfare, secreted in the wall of the pool room.

SPECIAL FARES TO ANNUAL ROSE FETE

Special fares from cities of the Bay region to San Jose for the annual Fiesta De Las Rosas, May 2 to 7, have been authorized by Southern Pacific company, according to F. S. McGinnis, passenger traffic manager.

An open fare from San Francisco, Oakland, Alameda and intermediate stations including Mayfield, Mowry and Irvington will be available for those who wish to participate in the colorful event. The basis of the open excursion fare will be a one-way fare and one-third for the round trip. The sales dates will be May 3 to 7 with the return limit May 9.

An elaborate program has been arranged for the fete and will include the annual parade featuring rose-bedecked floats, as well as a civic program with musical numbers and other features. Display booths representing the various industries of San Jose and Santa Clara county will be open throughout the week.

Mr. and Mrs. Raymond Peterson are rejoicing over the arrival of a son at their home April 16.

Congregational Church Easter Services Sets Attendance Mark

It is stated by those who have been connected with the institution for several years, that the attendance at the Niles Congregational church on Easter Sunday was much greater than it had been for many years. The regular pews were well filled and a few extra chairs were necessary to accommodate the worshippers. The preaching service opened with an appropriate organ prelude by the organist, Mrs. F. V. Jones. Immediately following was an impressive personal number by the members of the Young People's choir. The choir entered from the rear of the auditorium, marched up the center aisle in single file and entered the choir loft, singing with well-trained voices throughout the processional. In addition to this number the choir rendered another in which Mr. Dick Amyx had a pretty solo part. Two of the many features of the service which delighted the audience were the Children's sermon on "The Meaning of the Easter Egg," by the minister, the Reverend Arthur W. Seebart, and the presentation to each of the many children present a beautiful potted pansy. These pansies were the gift of Mr. Roger Hatch,

who for several years has made happy-hearted children by his kindly gift. The sermon text was from the 28th chapter of Matthew: "Go! Tell the Disciples He is Risen." The key note of the minister's message was that we only know the full meaning of Easter when we have experienced the resurrection of Jesus in our own hearts and that the test of this experience is whether or not we are filled with an irresistible desire to go and tell others about Him. The church was profusely and artistically decorated with numerous varieties of flowers, plants and shrubs which not only made it exceedingly attractive but filled it with the sweet perfume of spring's sweetest flowers. Mrs. E. A. Ellsworth and Mrs. A. A. Hatch were in charge of the decorations. The offering for the day was also the largest received in several years, being over \$400.00. Part of this will go to discharge obligations to the Church Building society and the remainder will be applied on the local budget. It was indeed a happy and hopeful Easter for everyone connected with the service of the Niles Congregational church.

Newark Substation Plays an Important Part in the Growth of Metropolitan Area

This is the Pacific Gas and Electric Company's big switching station at Newark, Alameda County

TO LAUNCH NEW CLASS

CRADLE ROLL DEPARTMENT IS
BEING ORGANIZED
AT CHURCH

Organization of a Cradle Roll department at the Niles Congregational church is planned, this project growing out of the enthusiastic meeting of the Ladies' Guild, held at the church Wednesday, April 13, at which time Mrs. L. Baldwin and Mrs. E. B. Kientz of Broadmoor were the speakers of the occasion.

The next meeting will be held Wednesday, April 27, and Mrs. P. A. Ellis has promised to set forth some aspects of life in Alaska, as she has known it from personal experience.

Among the guests at the last meeting were many old-time friends of the visiting ladies and others especially interested in Cradle Roll work which was the subject of Mrs. Kientz's most interesting talk. Plans are being made to organize a department of this nature at the local church under the leadership of Mrs. A. W. Seebart. Mrs. Seebart had experience in this work in Baker, Montana, a former parish of Mr. Seebart. At the close of the program refreshments were served by the officers of the guild, Mrs. A. A. Hatch, president, and Mrs. E. A. Ellsworth, vice-president; Mrs. C. E. Martenstein, secretary, and Mrs. George Bonde, treasurer.

Newark Switching Station Now Base for Power Distribution

Because hydro-electric power can be transmitted long distances more economically at high voltage than at low, California power companies establish great switching stations at convenient distances from centers of population, such as San Francisco and the East Bay district. In these switching stations power transmitted from mountain generating plants a hundred or more miles away is stepped down to a lesser voltage, then put on the wires running to the substations that supply homes, stores and factories.

Thus it was that the promise of greater efficiency and economy of operation impelled the Pacific Gas and Electric company to construct a high-voltage switching station near the town of Newark in Alameda county. This substation was built in 1919, and first received power at 100,000 volts on January 18, 1920. That power came from Halsey and Wise power houses in the Sierra foothills near Auburn. In the same year, responding to the increased demands of the bay metropolitan area, the company built another circuit to

Newark, this one from Drum power house in the old Emigrant trail country far up in the Sierra Nevada mountains. Electric plant in the mother lode country above Jackson was also connected with the big switching station. In addition, two 100,000-volt steel tower lines run into Newark by way of Oakland from Vaca - Dixon substation, switching point for the flood of power that comes pouring down from the company's Pit river plants. In 1925 connection was made with the line from the Moccasin creek plant of the city of San Francisco in order to carry out the agency contract for the distribution of power generated by that plant.

Prior to the erection of Newark substation the switching for the southern end of the P. G. & E. system was done on a smaller scale at Mission San Jose, from which point line were built into Oakland, San Francisco and San Jose. With the rapid growth of those cities and neighboring territory it became evident that the substation site at Mis-

NEWSPAPER MEN FEAST

PLANS FOR LIVERMORE RODEO
ARE OUTLINED DURING
SCRIBES' BANQUET

Supervisor Ralph Richmond, Geo. A. McArthur, publisher of The Township Register, and Jack Williamson, staff correspondent of The Oakland Tribune, represented Niles at the annual banquet given by district newspapermen by the Livermore Stockmen's Rodeo Association in Livermore Monday night.

T. W. Norris, president, and M. G. Callaghan, secretary, of the association, outlined plans for the event which is expected to offer more real thrills than any rodeo west of the continental divide. Ed Wright, famous rodeo clown and trick rider, and Sam Garrett, world's champion trick roper, were present and gave a real western atmosphere to the banquet.

Among the thrills promised by the association is a championship contest between Arthur Cowan, holder of the Roosevelt trophy, and Paddy Ryan, former holder of the trophy who is now breaking horses on the McLemore ranch near Livermore. These men are generally regarded as two of the greatest riders in the west. As wild horses from the range of hills east of Niles are to be used in the contest between these two men some real thrills may be expected.

COWS CAUSE AUTO WRECK

MORGAN HILL SALESMAN LOSES
TWO FINGERS WHEN
CAR OVERTURNS

Cattle being driven along the road through Niles Canyon were responsible for the loss of two fingers by Albert P. Craig, of Morgan Hill, whose automobile overturned near Sim's ranch Monday while he was trying to avoid the cattle.

According to Craig, the cattle were bunched on the road around one of the turns and the drivers did not have a lookout posted to warn motorists as they approached the curve. Craig applied his brakes and headed his car up a slight embankment. The machine overturned and his left hand was badly mangled when it was ground between the body of his car and the rough surface of the road.

The injured man was treated by Dr. Charles H. Law who found it necessary to amputate two of the fingers but believes that he was able to save a third one that was badly injured.

DATE CORRECTION FOR CARD PARTY OF NEWARK CLUB

In last week's issue of The Township Register it was announced that the Women's Improvement Club of Newark would hold a card party on April 28. The correct date for the party is April 29.

CLUB WILL CHEER VETS

TOWNSHIP WOMEN ASSIST RED
CROSS IN PLAN FOR
FOR VETS PICNIC

The Country Club of Washington Township at its last meeting appointed a committee of Mrs. H. W. Emerson, Mrs. George Helling and Mrs. F. V. Jones, to assist the American Red Cross from Oakland, in giving their annual picnic to the veterans at Livermore hospital. This is a big event in the year to the veterans, and the Country Club is eager to do its little bit to make it a success.

President Mrs. Roland Bendel, Mrs. H. H. Hunt, Mrs. T. E. Chadbourne, Mrs. W. H. Food and Mrs. James Whipple all plan to spend several days in Stockton at the end of the month, attending the annual district convention of the Federation of Women's Clubs.

The Country Club will be hostess club to the Alameda County Federation of Women's Clubs, at a picnic luncheon to be held in Mrs. Joseph Shinn's gardens on May 12.

All women of the community are cordially invited. Reservations for the luncheon should be sent immediately to Mrs. A. A. Hatch, Niles, Calif. Luncheon will be at 12:30.

The executive board of the county will meet at the Centerville Club house at eleven o'clock, and leave there at twelve, for Mrs. Shinn's gardens.

Production for Newark Firemen Plays to Capacity Audience

The Newark school auditorium was crowded to capacity on Tuesday evening when the Newark Dramatic Club presented to the public "The House of a Thousand Thrills," a mystery drama in three acts for the benefit of the Newark Fire Department.

Director Frank Jones, as an English mystery author, for once was baffled by a mystery that was a problem to unravel, and played this part as only he alone could have done. Adelle Steinhoff, as critics were overheard to say, "Is a born actress," and as usual was a general favorite. Eva Costa, who made her first appearance with the Newark Dramatic Club on this evening, carried out the role of Serena Carlton as only a professional could do, and the abuse she received from Ruth Blair Townsend, who took the role of Mrs. Carlton, was surely trying. Ruth Townsend, who has always been a favorite in the several plays in which she has taken part, once again stars in this production. L. Ruschia, Jr., as a burglar, was very good, as it was hardly expected that the part

of a villain would fit him. Laura Dutra, Katherine Pope, Mervin Monto, George Kommes and Mrs. Wyatt were all exceptionally good in their respective parts and received the favorable comment of all. Frank Veit once again stars as a butler, and created many a laugh. The mystery and plotting throughout the play kept the audience on their toes, as it was hard to anticipate just what would happen next. The Fire Department boys, resplendent in their new uniforms, made a very fine showing, and Fire Chief Louis Ruschia gave a little talk on the workings of the Department and the appreciation of the department for the unselfish efforts of Director Jones and his cast for staging this play for their benefit.

Pemintal's orchestra received much applause for the several selections rendered by them. The instrumental duets by Eva Costa and I. Santana were also enjoyed, and last of all Morris Silva, son of J. D. Silva, took the audience by storm with his vocal selections, and was encored again and again.

WILL PAVE TWO ROADS

COUNTY LETS CONTRACTS FOR
\$400,000 ROAD PAVING
IN TOWNSHIP

Contracts for paving two important roads in Washington Township and extensive repairs of another at an approximate cost of nearly a half million dollars were let by the board of supervisors this week and actual work will begin as soon as the equipment can be brought here, according to Supervisor Ralph Richmond.

The roads to be paved will be the one between Irvington and Mission San Jose and the road connecting Decoto with the Centerville-Alvarado highway.

A contract was also let for resurfacing and placing concrete shoulders on the badly damaged highway between Alvarado and San Lorenzo. County employees and equipment will be used in repairing the same highway between Alvarado and Warm Springs, the latter section being in better condition than the one west of Alvarado.

The road from Decoto to the Centerville-Alvarado highway is regarded as an important link in the highway system although it will take some traffic away from Niles. Traffic between Hayward and the Dumbarton bridge that now passes through Niles and Centerville will be diverted over the new pavement.

Paving of this link is expected to result in the early opening of First street through the California Nursery property and improvement of the present road between the nursery and the new pavement which will give Niles a better tie-in with the highway system.

NATIVE DAUGHTERS OF THE GOLDEN WEST ENTERTAIN

Laura Loma Parlor of the Native Daughters of the Golden West of Niles delightfully entertained Supervising District Deputy Maude Wagner of the Bear Flag Parlor of Berkeley at a delightful party on Tuesday evening. Those who helped make the evening a great success were: Mrs. Jane Carey, Mrs. Irene Dominice, Mrs. Belle Cahill, Mrs. Mae Barnard, Mrs. Mae Moore, Mrs. Ethel Fournier, Miss Myrtle Roland, Mrs. Ida Easterday, Mrs. Ellen Habernich and Mrs. Colton Roland.

MR. AND MRS. H. C. ROLAND ENTERTAIN ON EASTER

A very pleasant Easter was spent at the home of Mr. and Mrs. H. C. Roland, when several of their friends and relatives visited them. Those present were Mrs. James Fagan and sons Len and Bill of Oakland, Mr. Oentel of Berkeley, J. W. Koller of Niles, Mrs. John Laddish and son Bob of Berkeley.

GOOD CITIZENS

Good citizenship doesn't consist wholly in paying your debts, going to Church on Sunday and keeping out of jail. There's more to good citizenship than that. It's more to do with charity and inquiring about the condition of a sick or injured neighbor. Those things all help to make a good citizen, of course, and it is hard for a man to be a good citizen unless he practices them. But at this season another means of proving one's good citizenship is afforded, and we are referring to it in the hope that everyone around Washington Township will make a firm resolve to observe it.

We refer to the preservation of other people's property along the roads and highways over which you may be driving your auto. It may be that at this season you are tempted to break or damage flowering trees or bushes that attract your eyes, or the eyes of some member of the family riding with you. Don't yield to the temptation. Others will be passing a little later on, and it is not fair to rob them of the beauties of the country of which they, too, are citizens. Above all, the property belongs to someone else, and no good citizen will appropriate another's property without first having secured full and free permission from the owner to do so.

Breaking even one bush or mutilating one tree or flower bed detracts from the general beauty of the community. Think what it would mean if everyone resorted to the same practice. Let's save our outdoor beauties for others to enjoy. Let's demonstrate that we are good citizens by setting other drivers a good example. The season for such demonstration is here right now.

MINDING OUR BUSINESS

For a nation with a reputation for minding its own business and keeping out of controversies, we are certainly giving the world a lot to think about just now. Part of our army is in Nicaragua, trying to settle an argument. Another part of it is getting ready for a demonstration along the Mexican border, since we are again having a row with that country. And whole shiploads of marines and machine guns, as well as battleships and cruisers are hurrying to protect American interests in China. With a finger in the trouble pie in three different places it begins to look as though we are in danger of losing our hard-earned reputation of being the one great nation that could mind its own business and remain at peace with the world.

As far as the trouble in China is concerned, we've heard some substantial citizens of Washington Township argue that those who go over there on mission work know the dangers in advance, and should assume all consequences. That is a question open to argument. But we do believe that when a nation invites foreign capital and promises it protection by selling it concessions to do business, and then breaks those promises, the nations so treated are justified in using such force as may be necessary to uphold their own rights. Let one element in China start grabbing; and they will all be grabbing, even though they had previously urged foreign business to come in and help build up the country. There should be a settlement of this part of the trouble at once. Then we'll be in better position to talk about making all Americans come home—and stay at home when they get here.

A BIG DIFFERENCE

We never knew how time has changed this old world until we overheard a couple of women comparing dresses of 40 years ago with those of today. One of them consented to write out what it took to make an ordinary afternoon dress along about 1887. It required 13 yards of wide silk, 5 yards of skirt lining, 3 yards horsehair cloth to stiffen the skirt, 4 yards of silk for dust ruffle, 5 yards velvet skirt binding, 24 inches of skirt belting, the same of waist belting, one and a half yards of sleeve lining, 12 inches of buckram for collar stiffening, four dozen fancy buttons, one card large hooks and eyes, two cards medium and one card invisible hooks and eyes, 5 spools silk thread, three spools cotton thread, four spools buttonhole twist, two yards featherboning for waist, one yard small boning for collar, one bolt of seam binding. Today it takes four yards of silk and two spools of silk thread. Yet no man on earth can figure why today's dresses cost far more than those of 40 years ago.

DON'T BITE AT IT

We have a letter from a subscriber not far from Niles who says: "I have received four ties in the mail I did not order. I do not want them. Can these people force me to pay for them or pay postage for their return?" When anyone sends you merchandise you did not order and do not want you have no legal or moral responsibility whatever. Probably the easiest way to get rid of it is to return it to the postmaster or mail carrier. If you receive threatening collection letters, don't answer them, but turn them over to the postmaster. The mails are being used these days by a good many smooth individuals and they resort to many subterfuges to sell their stuff. Don't answer their letters unless it is to return their stuff with a warning not to repeat the offense as you are not in the market for anything they have. Then you'll soon be as free from bother as the man who does all his buying at home. The sharks seldom bother him.

Niles,

More freedom when electric range cooks for you

Cooks automatically while you're out in the sunshine

The electric range eliminates the hours of watching in the kitchen.

That is why many women—perhaps some of your neighbors—have more freedom. For an electric range cooks automatically.

While you're away the electric current turns on at any time you wish. After the cooking is finished it turns off.

When you return, the dinner is deliciously done and ready to serve. Even if you come home an hour late, the insulated oven keeps the food warm.

One of our representatives will gladly tell you about the electric range and how it gives you freedom, a cool summer kitchen and keeps cooking utensils clean. Just phone or write to P G and E office.

NOTICE OF THE PROPOSED FOR- MATION OF "NILES COUNTY FIRE PROTECTION DISTRICT IN ALAMEDA COUNTY."

Notice is hereby given that the Board of Supervisors of the County of Alameda has fixed Monday, the 2nd day of May, 1927, at the hour of 10 o'clock a. m. of said day at the meeting room of said Board in the annex to the Hall of Records situated at 5th and Broadway streets, in the City of Oakland, County of Alameda, State of California, as the time and place for a hearing on the matter of the formation of a County Fire Protection District to be known as the "Niles County Fire Protection District in Alameda County." At any time prior to the said time fixed for the hearing of said matter, any person interested may file with the Clerk of the Board of Supervisors, written objections to the formation of said proposed district. At the time and place fixed for said hearing or at any time to which said hearing may be continued, the Board of Supervisors will consider all written objections filed and shall pass upon the same.

The territory proposed to be organized into said Niles County Fire Protection District in Alameda County is specified and described as follows, to-wit:—

All that certain territory situated in Washington Township, County of Alameda, State of California, described as follows to-wit:

Commencing at the intersection of the Northeastly Right of Way line of the Central Pacific Railway with the Southeastly line of Lot 11 as said Lot 11 is delineated and so designated on that certain map entitled "Amended Map of the Gregory Tract" etc. filed October 30, 1889 in the office of the Recorder of Alameda County, California; thence Northeastly along the Southeastly line of Lots 11, 10, 9 and 8 of said Gregory Tract and the direct production Northeastly thereof to an intersection with a line drawn parallel to the center line of County Road No. 89 and distant Northeastly 250 feet, measured at right angles thereto; thence Southeastly along said parallel line to an intersection thereof with a line drawn parallel to the center line of a County Road which

lies Northerly from and adjacent to the lands shown on that certain map entitled "Ford Tract, Niles, Alameda County, California" etc., filed April 21, 1900 in the office of the Recorder of Alameda County, Calif., and distant Northerly 250 feet, measured at right angles thereto; thence along last said parallel line to an intersection thereof with the Easterly line of lot 19, as said Lot 19 is delineated and so designated on that certain map entitled "Map of a part of the Rancho Arroyo de la Alameda showing Tracts recently sold to J. G. Clark" etc., filed November 24, 1884 in the office of the Recorder of Alameda County, California; thence continuing Southeastly along said parallel line to an intersection with the Easterly line of the lands now or formerly of Clara Walpert, containing 0.57 acres and situate in the Southwesterly portion of Lot 20 of said Rancho Arroyo de la Alameda; thence Southerly along the said Easterly line of the lands of Clara Walpert to an intersection thereof with the Northeastly line of the afore-said road adjacent to the Ford

Tract; thence Southeastly along the Northeastly line of said road adjacent Northerly and Northeastly to the Ford Tract to an intersection thereof with the Northwestly right of way line of the Central Pacific Railway; thence Northeastly and Northerly along the Northwestly and westerly Right of Way line of the Central Pacific Railway to an intersection with the direct production Northwestly of the center line of County Road No. 247 where said center line crosses Alameda Creek at or near Lot 19 of "Clarke's Subdivision" hereinafter referred to; thence leaving the said Northwestly Right of Way line, Southwesterly along the said center line of County Road No. 247 and its direct production Northeastly and Southwesterly to an intersection with the Northwestly boundary line of the lands shown on that certain map entitled "Clarke's Subdivision Washington Township, Alameda Co., California" etc., filed December 2, 1907 in the office of the Recorder of Alameda County, California; thence Northeastly along said Northwestly boundary line to an intersection

thereof with the Northwestly Right of Way line of the Western Pacific Railway; thence Southerly and Southwesterly along said Northwestly and westerly Right of Way line to an intersection with the line dividing Surveys No. 59 and 60 of the Ex-Mission San Jose; thence Southwesterly along said dividing line to an intersection with the Southerly line of County Road No. 247; thence Southwesterly along said Southerly line to the most Northerly corner of Lot 1, as said Lot 1 is delineated and so designated on that certain map entitled "Map No. 1 of the Ellsworth Subdivision Niles, Washington Township, Alameda County, California" etc., filed May 18, 1907 in the office of the Recorder of Alameda County, California; thence Southerly and Southwesterly along the Easterly and Southeastly boundary lines of said Ellsworth Subdivision and the direct extension Southwesterly thereof to an intersection with the Southeastly line of the lands shown on that certain map entitled "Map of the Niles-Glen Tract Niles, Washington Township, Alameda County, California" etc., filed October 19, 1908 in the office of the Recorder of Alameda County, California; thence Southwesterly along the Southeastly boundary of said Niles-Glen Tract to an intersection thereof with a line drawn parallel to the center line of County Road No. 3100, and distant Northeastly 500 feet, measured at right angles thereto; thence Southeastly along last said parallel line and the direct extension Southeastly thereof to an intersection with the Northwestly boundary line of Lot 1, as said lot is delineated and so designated on that certain map entitled "Subdivision Map of Perry Morrison Property" etc., filed August 30, 1889 in the office of the Recorder of Alameda County, California; thence Southwesterly along the Northwestly line of said Lot 1 to the most Westerly corner thereof; thence Southwesterly in a direct line to the point of intersection of the Southwesterly line of the afore-said County Road No. 3100 with the Northwestly line of County Road No. 12; thence Northwestly along said Southwesterly line of County Road No. 3100 to an intersection thereof with the Southerly line of the lands shown on that certain map entitled "Plot of the Rancho Arroyo de la Alameda" etc., filed April 5, 1858 in Book A of Patents at Page 70 thereof in the office of the Recorder of Alameda County, California; thence Southwesterly, Westerly and Northwestly along the Southerly boundary line of said Rancho to an intersection thereof with the direct production Southwesterly of the Southeastly line of Block C, as said Block C is delineated and so designated on that certain map entitled "Map of the Sullivan Addition to Niles" etc., filed June 6, 1910 in the office of the Recorder of Alameda County, California; thence Northwestly along the direct production Southwesterly of the Southeastly line of said Block C to the most Southerly corner thereof; thence Northwestly along the Southwestly boundary line of said Block C to the most Westerly corner thereof; thence Southwesterly, Northwestly and Northerly along the Southeastly, Southwesterly and Westerly lines of the lands shown on that certain map entitled "School Tract Niles, Washington Township, Alameda County, California" etc., filed June 18 1912 in the office of the Recorder of Alameda County, California to an intersection thereof with the direct production Northwestly of the Southwestly line of Lot A of said School Tract; thence along the Northwestly production of the Southwestly boundary line of said Lot A to an intersection thereof with a line drawn parallel to the Northwestly line of School Street, and distant Northwestly 150 feet, measured at right angles thereto; thence Northeastly along said parallel line to the Southwestly corner of lands now or formerly of Frank Joseph Vargas and distant Southwestly 250 feet more or less, from the Southwestly line of 2nd street, measured at right angles thereto; thence Northwestly, parallel to the Southerly line of 2nd street or the direct production Northwestly thereof, to an intersection with the line dividing the lands now or formerly of Joseph Shinn and George C. Roeding Company (a corporation); thence Northeastly along said dividing line to an intersection thereof with a line drawn parallel to the center line of County Road No. 1516 or the direct extension Southeastly thereof, and distant Southwestly 250 feet, measured at right angles thereto; thence Northwestly along last said parallel line to an intersection thereof, with the Northeastly right of way line of the Western Pacific Rail-

way; thence Northwestly along said right of way line to an intersection thereof with the Northwestly boundary line of Lot 1, as said Lot 1 is delineated and so designated on that certain map entitled "Map of the California Nursery Company Subdivision No. 1" etc., filed May 9, 1921 in the office of the Recorder of Alameda County, California; thence Northeastly along said Northwestly boundary line of Lot 1 and the direct production Northeastly thereof to an intersection with the Northeastly right of way line of the Central Pacific Railway; thence along said right of way line to the point of commencement.

New Silent Four Smooth as a Six -years ahead of Price Rivals

**[Vibration Eliminated
beyond comprehension in the new
"Silent" Star Four]**

Millions of "Four" drivers have waited for this greatest of all automotive engineering achievements!

Now — the world-famous Star Four (still retaining every ounce of its exclusive power and speed, embodying many newer refinements to its already distinct beauty and style!) is *vibrationless* BEYOND COMPREHENSION by completely rubber insulating the motor mounting.

Heretofore, THOUSANDS of people have refused to buy any four-cylinder car — knowing the "bugbear" of *Vibration*. NOW — these thousands can enjoy to the full such restful riding as has never been known before in any four-cylinder car.

And With New Low Prices Starting With **\$550** New Silent STAR FOUR Touring

COMING EVENTS

American Legion dinner dance at the Garden of Allah April 26.
Woman's Improvement Club of Newark holds a card party in the school auditorium April 29.
Meeting of Niles Chamber of Commerce Tuesday noon.

William Shakespeare's memory will be honored when a luncheon commemorating the date of his birth will be held next Tuesday by the English-speaking Union at the Mark Hopkins hotel. The occasion will be in observance of the Bard of Avon's 353d birthday.

Thirty San Franciscans, whose names mean millions, sat around a horseshoe shaped luncheon table at the Palace Hotel yesterday and said: "Aye!" And with that simple gesture they had pledged a quarter of a million dollars to bring the 1928 Republican national convention to San Francisco.

TO PROTEST STATE HIGHWAY
SACRAMENTO, April 20th, (Special)—A determined campaign, designed to protect the state highways by ridding them of trucks deliberately loaded beyond the legal weight, will be launched within the next ten days by the Division of Motor Vehicles. It was announced today.

APPRECIATES ASSISTANCE

GIVEN NEWARK'S FIREMEN

Louis Ruschin, chief of the Newark fire department, today expressed his appreciation to all participating in the staging of "The House of a Thousand Thrills," the play given as a benefit for the department this week.

"Members of the club deserve the highest of praise as do Pimentel's Orchestra, the newspapers, Mourise Silva, who offered the vocal selections between acts, and the township in general for the patronage given the show," Ruschin said.

NOTICE OF DISSOLUTION

Private affairs having called Mr. Collins to Seattle for a time, Notice is hereby given that the firm of Collins & McArthur heretofore publishers of the Township Register, has been dissolved by mutual consent.

All accounts due to the newspaper should be paid to Mr. McArthur and all accounts due from it will be taken care of by him.

Dated April 9, 1927.

Honesty of Indians

Shown by Old Record

John S. Rappe, who conducted a tavern and general store in the vicinity of the old Wyandotte Indian reservation in Ohio for many years prior to the removal of those Indians to another reservation west of the Mississippi river, adds his testimony to the volume of evidence on record as to the essential honesty of the Indian comments the Dayton News.

When this tribe was transferred west of the Mississippi there were many members of it who were indebted to Rappe. Most of the indebtedness was in the form of small sums, but the aggregate was five or six thousand dollars. It was not a tribal debt; so the collective lands of the tribe could not be attached, and the individual debtors were beyond the service of judicial process. Besides, they were practically all judgment proof anyhow. But Rappe testified that he did not lose a dollar of it. Principal and interest were paid, to the last penny, and often, because of the inadequate means of transmittal in those days, it cost the absent debtor as much as the entire payment to send it; but it all came, in one way or another.

Indians Resent Terms

Derogatory to Race

Melvin R. Gilmore of the Museum of the American Indian in New York says that the Indians resent having the words "squaw" and "papoose" applied to their women and children. "The use of the terms 'squaw' and 'papoose' is not only an offense against refined speech," according to Gilmore, "but those who use such terms are thereby incapacitated to fairly appreciate the Indian, or any thing of Indian culture. The psychological effect of the use of such terms is to inhibit the mind of one who uses them from estimating Indians in their proper human relationship. And I may say that of all the wrongs and injustices suffered by the Indian race the native American race, none causes more bitter, burning resentment, and naturally so, than this of declassing Indians apart from all human kind by the use of these reprehensible and derogatory terms."

The Difference

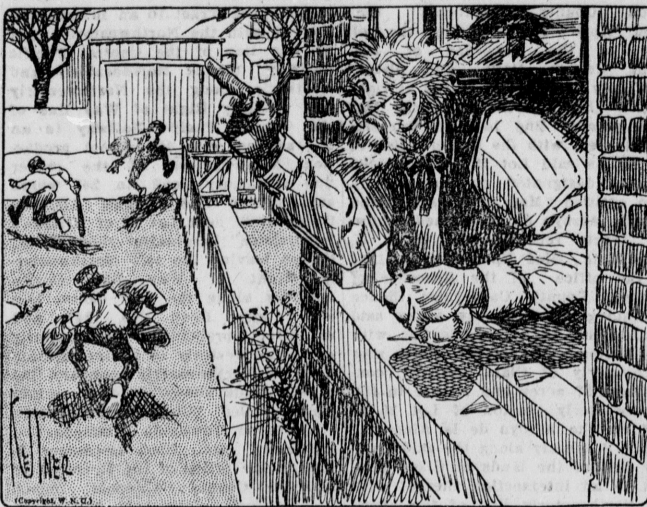

A wordy warfare once took place between Lord Birkenhead and Judge Willis, as related in "Lord Birkenhead," by Ephesian. The judge was furious at some remark made by Lord Birkenhead.

"Mr. Smith," he said, "you remind me of a saying by Bacon, the great Bacon, that 'youth and discretion are ill-wedded companions.'"

"You remind me," replied Lord Birkenhead, "of a saying by Bacon, the great Bacon, that a 'much-talking judge is like an ill-tuned cymbal.'"

"You are offensive, sir!" cried the judge.
"We both are," the counsel replied; "the difference is that I'm trying to be, and you can't help it."—Pittsburgh Chronicle-Telegraph.

The Baseball Season Opens

CHRISTIAN ENDEAVOR NOTES

Mr. Dick Amyx has been chosen from among local contestants to represent the Christian Endeavor in the District Oratorical Contest to be held at the Fruitvale Church, Oakland, next Sunday afternoon. The subject is "Christian Endeavor." There will be perhaps an auto load of Young People present for the contest.

The local society will be hosts next Sunday evening, to a group of selected young people from the Ocean View Congregational church of San Francisco. The visitors are coming to observe at first hand the working out of the plan which is in use here. For the meeting next Sunday Miss Lucy Shinn has been chosen Devotional leader; Mr. Bob Amyx, game chairman; Miss Betty Houghton, refreshment chairman.

C. S. OBSERVES EASTER

An excellent program of recitations, songs and exercises helped to make this Easter a memorable one in the history of the Congregational Church school. The program was well planned and the children well trained. Many favorable comments were to be heard from parents and others who were present as a result of special invitations carried to them by the children of the school. Each pupil was made happy by the gift of a beautiful Easter booklet or card from his or her teacher. Teachers were also remembered by the pupils. Including visitors between 90 and 100 were present for the church school at 10 a. m.

Dr. Law reports a fine boy, weighing nine pounds, arrived at the home of Mr. and Mrs. M. C. France, Niles, yesterday, the 20th. inst.

Hold Church Services

in Old Waiting Room

Porters and clerks at Denmark Hill railway station, South London, often work to the accompaniment of hymns sung lustily by a congregation in a disused waiting room next to the booking office, says the Washington Star. The Mystical Church of the Comforter is one of London's most curious churches. Babies are baptized in a room that was once only used by impatient travelers waiting for their trains; funeral services are read in it and a marriage has been solemnized. This church has been in existence for about six years.

One end of the former waiting room has been transformed by an altar painted white and surrounded by the seven colors of the rainbow. Seven steps lead to the altar, and at the side are two pillars representing beauty and strength. Everything is done by symbols in this remarkable church and the badge worn by members is a dove standing in a circle with a seven-leaved branch in its beak. The leader and founder of the church was a woman named Mrs. Elizabeth Mary Eagle Skinner, with the official title of "messenger."

Founder of Textile

Industry in America

Spinning as an industry in America was born in Pawtucket, R. I., December 20, 1790, when a young Englishman, Samuel Slater, completed the building of machines from plans he had carried in his memory to this country upon hearing that Americans were offering prizes for inventions to improve the textile industry.

He built the machines for one Moses Brown, who, with his partner, had mustered an army of hand-loom weavers that at top speed could produce 8,000 yards of cloth in a year. Americans had attempted to build machines modeled after the English type without success, but Slater, in less than a year, had completed a set of machines that startled everyone by running successfully at the first trial. Yankees, even at that early period, prided themselves upon their ingenuity and inventiveness, but proved themselves also game enough not to resent the young Englishman's success and came from far and near to learn to operate Slater's machines and set up in the new industry for themselves.—Kansas City Times.

Armchairs Once Luxuries

Armchairs only became possible with the breakdown of monarchical and feudal power and the decay of the old family and social hierarchies. In the European society of two or three hundred years ago, it was impossible for anyone—from the Holy Roman emperor and the king of France down to the poorest beggar, from the bearded patriarch to the baby—to loiter in the presence of anyone else. Every man was always engaged in being impressive towards his inferiors, or respectful to those above him. It was only in the eighteenth century when the old hierarchies had begun to break up, that furniture began to become comfortable.—Aldous Huxley in Vanity Fair.

But Not to Him

The argument had been all on Mrs. Brown's side for most of the night, and Brown was distinctly fed up. "You seem to think a cold in the head means nothing to a woman," stormed his wife. "I don't know of anything more annoying."

Her husband peered over the newspaper he had been endeavoring to read. "No?" he countered, with a rare flash of spirit. "How about the oak'aw?"—Pittsburgh Chronicle-Telegraph.

The Chaperon

Among many African and Asiatic peoples girls were betrothed in infancy and kept hidden until ready for marriage. They were tabu to the warriors, an elderly woman being selected to see that they were not approached by any man. When the girls reached a certain age they were permitted to "come out" into the sun and be married. Survivals of this custom are seen in our chaperon, the coming-of-age party and "coming out" into society.

Echoes . From . Niles . Canyon

Copy-written by JOHN D. HOWE

We have often heard it said, on the highway as well as behind closed doors in the lodge, that women make the best back-seat drivers, but that doesn't go any farther with us than the front door of the post office at Niles, especially when we notice a high-powered car about to crash into a creeping little Ford on a sharp curve, the fond mother clapping her dog to her bosom as she deliberately chucks her six-months-old baby down the embankment. POLICE!

Things are surely coming to a fine state of affairs at the San Francisco Relief Home, when a 77-year-old kid knifes another inmate, six years his junior, over the ownership of a galvanized iron pail, worth about 19 cents at the Mutual Store. Had there been a woman in the case, the fight might have lasted indefinitely. Age doesn't seem to have much effect on the fighting instinct in some people, old or young, rich or poor.

It is reported that a large moose herd is getting ready to drift towards Merced, where the big and little moose will frolic from May 28th to 30th. Why not try to head them off and have them graze in the canyon a few days? Don't let's put it off too long—but go out and gather up a few tons of alfalfa—that would taste good to a moose, even without a glass of lager beer.

A big bunch of Paul Revere Riders, with their families, sisters and sweethearts, intend to swoop down on the Masonic Home at Decoto on April 23rd; have a basket lunch, picnic, and finish up with a dance. HUH YAH! We'll be with you, brethren, if it doesn't rain too hard.

During one of our April showers, we noticed a pilgrim from Nebraska walking along the plaza carrying an umbrella and wearing a slicker, rubber hip-boots and a sou'wester. Some people are never willing to take a chance on anything.

A woman in Milpitas recently sued her husband for divorce, charging neglect and "spending entirely too much of his time reading the Township Register." Decision postponed until after the cherries are ripe. Seems like friendship should cease when a nagging wife won't let her hubby read his favorite paper. Atta Boy!

If we had just one-half the money contributed last year by the good people of Niles, for the benefit of foreign missions, enlightening the heathens, and buying up Chinese babies, the Chamber of Commerce could put in a town pump at each end of the plaza. China for the chinks—Niles for us—that's our motto!

We often wonder if the Pemental Brothers, who advertise to remove dead horses upon notification, ever thought of attending any of the "old hoss" sales in San Francisco and Hayward.

The news concerning Henry Ford is reassuring since he has been returned to his home and there appears to be no doubt of his recovery. This ought to show what good bumpers and shock absorbers will do on a car.

The old sea dogs that drift out to the Cliff House every day and sit for hours, to see if any windjammers are at anchor off the Seal Rocks, should spend an hour or two each day at the Niles Home. They have one there that any of the guests will bet a hundred to one can make 18 knots an hour and do it easily with on sail set. The sky is the limit on bets.

After we had that big shower on April first, the merchants on the plaza thought it only another April fool joke when they looked out and noticed the grandstand swimming around in a pool of water. When they saw it make a dive and come near upsetting, they grabbed their umbrellas, put on their raincoats and waded out and hatched the cutter to a big tree. Inasmuch as we may have a few more April showers, why not anchor it fast—then we could all go to sleep and not have to worry.

A Niles woman who had a grudge against her neighbor, told her enemy over the fence that she wanted her to understand that she could hold

her head as high as any woman in the town. "Mebbe so," replied the angry neighbor, "but you can't eat corn off the cob, or bite an apple with false teeth." We'll say that one went over the fence.

If all reports are true, "You may fire when you are ready, Gridley!" is to be placed in the discard and "Let 'er go, Benny!" substituted therefor. Tell it to the marines—we are strong for the bluejackets.

How about a hog calling contest in the Canyon? Seems like we ought to be able to get up one that will be heard by every hog in Nebraska and Iowa. The only thing that worries us is where are we going to get all the hogs that answer the calls. When the poundmaster was asked how many he could furnish, he hesitated a moment and said: "I got some but not many—what kind you want, ground-hogs, shoats, or just hogs?" If we can't buy or rent enough for a good contest, let's get up a yodeling match, or arrange for a few bull fights—anything to keep the boys at home.

The Niles merchants are talking about closing their stores for three hours on Good Friday. That's good, gentlemen, but why not make it unanimous and close for three hours every day? That would enable some of the housewives to do their shopping of evenings, and give them a good alibi for being out after dark.

If the Santa Clara Valley people make many more bad breaks by postponing their blossom festivals, the cherries and apricots will be ripe enough to eat time all the visitors get there.

The traffic cop at the entrance to the Canyon says if business continues as good as it was last Sunday, he'll have to get an additional machine to keep track of the number of machines that go in and out. He claims that very often more go in than come out, but he evidently didn't figure on the occupants of some who bought lots, pitched tents, and decided to rough it until they could write home and have their household goods shipped out by freight.

Listen to this. Three feet of snow fell at Summit on April first, bringing the total depth of the snow to 11 feet four inches. Notwithstanding this, people in the east are writing every day for literature and information about "Sunny California," evidently thinking the above was only an April fool joke. If the Canyon continues to fill up, we'll have to ask the Chamber of Commerce to extend the city limits of Niles to a point a mile or two beyond the canyon.

Duarte's store doesn't claim to have "22 homes on the bargain counter," but they have a lotta other things just as good, and better to eat. Men, as a rule, don't like to go house hunting on an empty stomach, but the women don't mind it so long as they can get a free ride and a hot tamale that tastes good without a schooner of beer.

On April Fool's day, we were called to the phone a number of times by gentle voices asking for the correct time of departure of the 11:45 train for Livermore. Our answer was: "Not knowing, we could not with any degree of accuracy presume to affirm." All but the last birdie—we hung up on her.

Judging by the amount of hot air coming through the east end of the Canyon, the rodeo riders around Livermore are kicking up a lotta dust about Bob Anderson's threat to bring a string of his polo ponies and broncho riders over from Saugus. We've heard it said that when Bob shies his hat in the ring, a cowboy had better smoke another cigarette before he meddles with the hat, but the Livermore boys are mostly all from Missouri, and quite a few are wondering if Bob really has any ponies worth putting a side-saddle on. Ride 5'em, boys, ride 'em!

Didja ever jump out of bed at 3:17 a. m., to subdue a belligerent telephone bell, only to be informed by a gentle female voice, saying, "Sorry to disturb you, wrong number?" Whether you are for us or against us, we just wish to say that nothing like that has happened in Niles for the past 612 years. However, if it were to happen—but why anticipate trouble with the telephone company?

Modern preference finds its choice in Camel

PRESENT-DAY taste singles out Camel as its ideal cigarette. This age is the most exacting ever known and it rates Camel first. Camel taste and fragrance come from the choicest tobaccos grown. They lead to supreme smoking pleasure.

You'll never find a higher standard of goodness than in this favorite cigarette. Your own enjoyment will confirm the overwhelming choice of modern smokers.

To know how mild and mellow the quality cigarette can really be—"Have a Camel!"

CANYON ROAD SUIT
DECISION EXPECTED

Pavement of the Niles Canyon road is expected to be brought one step nearer reality within the next ten days when a decision is handed down by the district court of appeals before which Alameda county and the Southern Pacific railroad are fighting to establish title to part of the land crossed by the present road.

Lester Duffy, president of the Niles Chamber of Commerce, told members of the organization at its luncheon meeting Tuesday that he had interviewed the Marysville judge who has the case under advisement and had been informed that he would hand down a decision not later than May 1.

However, the decision will not end the litigation and result in the immediate improvement of the road. Both sides have announced that they will appeal the case if the decision is against them.

GOOD FRIDAY PLAY UNUSUAL

Much comment has been occasioned in church circles by the unusually valuable service held at the Congregational church on Good Friday. The young people of the church gave a remarkably fine interpretation of the play, "The Quest of the Grail." Each one seemed to live the part he or she was playing with the result that the impression made upon all who listened and watched was tremendous. And when the Holy Grail appeared during the course of the play, it seemed more real than mechanical, so well had the players acted their parts. All who took part did commendably, while the acting of Miss Lucy Shinn and Miss Elizabeth Shinn was especially fine. Following the play there was a service of Com-

ABSOLUTELY TRUE TO LIFE IN EVERY DETAIL

"I want it," pleads Clara Bow, star of Paramount's great new air version of the World War called "Wings." This time the "it" that Clara got was some Associated Ethyl gasoline, which was presented to her by Harry Wetzel, general manager of the Douglas Aeroplane company, who, after viewing scenes of this thrilling war film, claimed it to be absolutely true to life in every detail. Associated Ethyl was used in many of the little air fighters during the filming of this great war thriller due to its excellent carburation qualities at high speeds. Because this popular aeroplane gas is the same that is sold at all Associated Ethyl pumps, aviators say it actually puts "wings on your car."

munion which gave opportunity for the expression of the spiritual emotions aroused by the play and lead all into the presence of God's spirit. It is hoped that the service may be repeated next year.

BOOK DONATIONS ASKED FOR
MERCHANT MARINE LIBRARY

"Let your books go out to sea," is a modern way of saying "Cast your bread upon the waters," and the week of April 19-27, has been set aside as the Fourth Annual Book Week, a project that is unique to California. Individuals are asked to cooperate by leaving one or more books that they have enjoyed with the local librarian, who will turn the volumes over to the Merchant Marine Library, organized for the benefit of the sailors.

California's sea-going library now numbers more than 68,000 books, 23,000 of which were given last year. Sailor lads have found untold enjoyment and benefit from these volumes.

This enterprise is under the direction of the California Library Association and the Seamen's Church Institute. Residents of Niles are urged to contribute books during the week of April 19-27.

PARENT-TEACHER FOOD SALE
PROVES TO BE POPULAR ONE

Centerville Parent-Teachers held their annual Easter food sale at the Hellwig and Lagrave market Saturday and reports of a big success are given. Pies, cakes, salads and other delectable dishes such as can be prepared by Centerville women found a ready sale with Easter shoppers.

Funds from this sale will be used to carry on the work of the association, which already has proved its great value to the school.

DUCK SHOOTING PRESERVE
TO BE LEASED BY CLUB

Sportsmen of Washington Township are promised another treat in the action taken last Friday night by the Sportsmen's Club at Decoto, when it was practically decided to accept the terms of the lease of a 1,000-acre duck shooting preserve near Mowry's Landing for members of the organization.

LOCAL CONCERN SOLD TO
SAN JOSE BUSINESS MAN

E. A. Ellsworth has sold his concern, The California Cup Leather Works, located here, to a business man of San Jose who will move the plant to that city.

This factory has been located opposite the Essanay studio and its products, cup leathers for deep well pumps, found a sale with the Southern Pacific and other large concerns.

150TH ANNIVERSARY OF BIRTH
OF FLAG TO BE OBSERVED

SAN FRANCISCO, April 20.—On June 14 throughout California there is to be observed by every American Legion post, the one hundred and fiftieth anniversary of the birth of the American flag, according to instructions issued by Dr. John F. Slavich, State Commander of the World War veterans' organization.

Special community ceremonies will be held by each Legion post and plans are being perfected for one of the greatest testimonials in American Legion history. Commander Slavich reports, following word from Eugene D. Bennett of San Francisco, state chairman of the veterans' Americanization Committee of the Legion.

Have you read the war news?

ENTERTAINMENT TO BE GIVEN
BY NEWARK GRAMMAR SCHOOL

Patrons and friends of the Newark Grammar school will be offered an evening of entertainment, Thursday, April 28, at 8 o'clock, when Dr. Rodolph Lindquist, assistant superintendent of public schools of Oakland, will be the principal speaker. There will also be a program of community singing, two playlets to be given by the Newark Grammar school pupils and the Washington Union High school.

This program is given in observance of Public Schools Week. No admission will be charged.

ORGANIZE LUNCHEON
CLUB AT CENTERVILLE

Following the example of the Niles Chamber of Commerce, the Centerville commercial body has appointed Fred F. Dusterberry chairman of a committee which is to arrange for weekly luncheon club meetings to be held in Laumeister's cafe. The club will meet every Thursday to discuss problems affecting the community.

Dusterberry, who has been an advocate of a luncheon club for several months, believes that business men of the city will profit by "rubbing elbows" with each other around a luncheon table once a week.

SAN FRANCISCO BANKER IS
SPEAKER AT MEN'S CLUB

Kenneth A. Millican, an official of the Pacific National Bank of San Francisco, was the principal speaker at the Men's Club of Washington Township which met at the Centerville Country Club Thursday evening. Mr. Millican's address on "Points of Contact" was enthusiastically received as were the musical numbers given by Miss Lillian Swabey, violinist, and Miss Reid Mayer, vocalist, both of San Francisco, and Mr. Peneguea of Decoto, a popular local singer from Decoto.

ALVARADO STREET WORK IS
NOW NEARING COMPLETION

Another evidence of progress noticed in Alvarado is the street improvement work being done there. One of the newest projects is the widening of the intersection of Smith and Levee streets. This will increase the safety of motorists. The work will probably be completed this week.

LOCAL PEA CROP PREDICTED
GREATEST IN LOCAL HISTORY

According to reliable reports this year's pea crop in Washington Township will be the greatest in the history of the local community. It is estimated that 5,000 acres have been planted in this crop and will yield its growers approximately \$250,000.

THE YOUNG PEOPLE'S EVENINGS

What you will be in the future depends largely upon the way your evenings are spent. Our daytime hours are mostly arranged for us. We have certain tasks that must be done whether we like it or not, but in the evenings what we do is largely a matter of choice.

Instead of wasting every evening in a frivolous party, use these hours for helping your parents, gathering valuable information from good books, making yourself into the kind of person that will be of material benefit to society and a help to the coming generation.

Glory Long Departed
From Ancient Karnak

Karnak is a village in upper Egypt with a population of about 15,000. The village has given its name to the northern half of the ruins of Thebes on the east bank of the Nile, the southern part being known as Luxor. The Karnak ruins comprise three great enclosures built of crude brick. The most northern and smallest of these contained a temple of the god Mont, built by Amenophis III, and restored by Rameses II and the Ptolemies. Except a well-preserved gateway, little more than the plan of the foundation can be traced. The southern enclosure contained a temple of the goddess Mut, and is almost as ruinous as the east, but on a much larger scale. The third or central enclosure is of vast dimensions, forming approximately a square of 1,500 feet; and it contains the greatest of all known temples, the Karnak temple of Ammon. Thebes became the royal residence, and Ammon of Karnak was the great god of the state. Different kings added to the temple of Karnak and to Thebes. Alexander the Great, the Grecian conqueror of the East, restored a chamber in the festival hall. The walls of the buildings throughout, as usual in Egyptian temples, are covered with scenes and inscriptions, and many record the annals of kings and of battles and campaigns.

Army Makes Extensive
Use of Finger Prints

The largest collection of finger prints in the world, 5,023,881, is in the office of the adjutant general of the army, Washington, according to the American Medical Journal. The fingerprint system was adopted in 1906 on the recommendation of a board, of which Brig. Gen. Walter D. McCaw, medical corps, was a member. Finger prints have proved invaluable to the government in the administration of the adjusted compensation act, and have made possible positive identification of more than 2,800,000 applicants. They serve to assist civil authorities, also. For example, a man disappeared in 1917, and in 1924 he was declared legally dead by a court; his family claimed his life insurance. June 30, 1926, a deserter from the army surrendered to military control, and was identified by his finger prints as the man in question. In the last fiscal year 3,406 "undesirables" were discovered by means of the army finger prints.

Care of Rubber Plants

If you desire a good-looking rubber plant you must give it good air. Keep the soil moist but not soggy. The watering depends upon the heat of the room. Usually every other day is sufficient. A rubber plant will thrive best in a room that is light, but it should not be kept in the hot sun.

Every two or three weeks when watering add ammonia to the water, using one teaspoonful ammonia to one quart of water. This will keep the plant from becoming wormy.

Occasionally wipe the leaves gently with warm milk, using a soft cloth. This always cleanses the leaves and acts as a food for the plants.

Repairing Hard Rubber

The bureau of standards says that hard rubber may be joined by a bond of new hard rubber. A cement is prepared by adding one part of sulphur and three parts of carbon bisulphide and three parts of alcohol. Several applications of the cement are applied to the broken parts. These are finally joined and held under pressure at a temperature of 160 degrees C. for four hours. A mixture of equal parts of gutta percha and bitumen dissolved in carbon bisulphide may also be used to cement the broken portions.

Ironing Day Romance

There can no longer be any question as to the heat of an electric iron.

The Woman's Home Companion tells of one of them left by mistake on the ironing board, which burned its way through the board, dropped to the floor, burned through that and landed in a basket of potatoes in the cellar before the homemaker who was doing the family ironing got back from having a little chat over the telephone. Fortunately it was almost dinner time, so the fried potatoes came in very handy for the meal.

Scott's First Novel

"Waverly" was the first of the series of famous novels written by Sir Walter Scott, produced in 1814. The secret of the authorship was well kept for years. The book gives a fine picture of the hopes and fears that animated political parties in Great Britain in 1745, the year of the uprising led by Charles Stuart, the Young Pretender. Its name is taken from Waverly, near Hindhead, in Surrey, England.

Ozark Mountains

The upland area commonly spoken of as the Ozark mountains or the Ozarks lies mainly in southern Missouri and is separated from the Appalachians by the lowlands of the Mississippi basin and from the Rocky mountains by the Great plains. The United States geological survey says that the Ozarks are not regarded by geologists as a part of either system but as a distinct unit.

California Ranch News

Keep the poultry house clean and the birds are more likely to keep healthy.

O. R. Barber of Orange Cove has on display a Navel orange weighing one and three-quarter pounds, and fifteen inches in circumference.

Horticultural officials report a heavy set of almonds in the Terra Bella district. Many new plantings in this vicinity are reported.

Spinach has been coming to the Kings County Packing company plant at Lemoore for several weeks, most of it being from the Island district.

The College of Agriculture has selected the Porterville district for the propagation and study of about 350 varieties of figs in an experimental orchard.

A new disease is reported in some of the cherry growing districts of California, but its cause has not been discovered and no control has been found so far.

Pea shipments have continued heavy from Calipatria. The peas are reported of excellent quality and the growers have received satisfactory prices for them.

S. W. Cosby, representing the University of California and the United States Bureau of Soils, is engaged at preparing a soil-crop survey in the southern end of the Imperial valley.

C. H. Garland, manager of Woodlake Heights Ranch, near Woodlake, plans to raise hogs on a larger scale than heretofore, in connection with fruit growing. The forty-acre fig orchard on the place will be fenced and there the hogs will fatten on waste fruit.

Timely rains fell in the McFarland district during the latter part of March. The wheat and barley had begun to burn a little, but the rainfall has put it in fine condition and the crop promises to be the best for many years. It is estimated that there are 1000 acres of unirrigated wheat in this vicinity this season.

Many hatcheries of the state have promised to help the poultry department of the State College of Agriculture by making monthly reports of their sales of baby chicks. In this way, the college poultry authorities believe, accurate data may be secured on which to base estimates of the future egg production of California.

The fourth annual Avocado show to be held at Whittier April 25 to 30, promises to show a healthy growth in size and patronage over that of last year. It is stated that about 6000 persons attended the show last year, and arrangements are being made to handle 10,000 this time. The exposition is being sponsored by the Whittier Progress club.

Prospects are bright for the first normal peach crop in four years in the Pomona district. It is estimated that returns from this season's peach harvests will be much larger than they have been for several years in the Chino and Pomona districts. The blossoming has been particularly heavy. Local canneries will handle the bulk of the crop.

Not as many cows will go to the butcher block this year in Kings county as usual, it is reported, owing to the abundance of feed due to the unprecedented amount of rainfall. Farmers are holding their cows, no matter how old, with ample feed now and in prospect for the summer. Good prices are now being offered for cows, with not many takers.

The bulb farm of Dr. C. C. Crampton on the highway near Delhi in the state colony will again be a mass of color to delight the eye of the passerby next summer. Incidentally, this hobby of a retired Illinois physician may result in a new industry for the settlement, as many of the colonists are deeply interested in watching the results obtained by the pioneer.

Marion Crabtree, Visalia, chairman of the poultry department of the Tulare county farm bureau, states that a reduction in assessed valuation of poultry in the county from \$5 to \$4 per dozen has been authorized, which will result in a considerable saving in taxes to the poultrymen.

The competition in the acre-spinach contest in the Island district, Kings county, is drawing near to an end and interest is quite keen as to who will win the prize offered by the Kings County Packing company.

In Tulare county for the last year, peaches showed the largest gain in export value, particularly the canning variety. An approximate value of over \$3,000,000 for peaches in this county was realized in 1926. The county has a total peach acreage of 21,690, including freestone and cling.

The cantaloupe growers of the Imperial valley have uncapped their plants, and report an excellent early growth. Weather conditions appear to be favorable for a rapid development of the vines.

With the sheepshearing and lamb shipping in full swing, and one of the best seasons from a crop standpoint in years, some wool is now moving to market, although, it is reported by J. Bridgegaray, well known Fresno wool buyer, a strong demand has not as yet been evinced by the big users of wool. Dispatches from Mendota indicate however, some activity in buying, with producers holding back for better prices. While the wool crop is better in quantity per head, running from two to three pounds more than last year, Bridgegaray points out that the size of flocks in the San Joaquin valley district has shrunk during four dry years something like 40 per cent, thus limiting the gross output rather severely.

The board of supervisors, Kings county, has accepted from Roy M. Filcher, manager of the Post-Card ranch near Corcoran, the gift of a registered Holstein bull calf from a dam that in January produced ninety-two pounds of butter fat and a great grandson of King Korndyke Pontiac 20, a \$12,000 Higdon bull and descendant on the dam's side of Pohanna McKinley Segis, the \$40,000 bull owned by the Carnation farms. The calf is intended for a future sire for the county hospital herd.

Frank R. Brann, Tulare county horticultural commissioner, says that because walnut trees may need less irrigation than some other orchard trees is "not an indication that they need no water at all." He says that walnuts size by July 1 and that to secure commercial size they must have sufficient irrigation during the period of their development. He urges the use of the soil auger to discover the moisture penetration to a depth of at least eight feet in the walnut groves.

The Lindsay Farm Bureau Fruit association finds itself at the present time with a modern plant almost paid for, and gained this from a start in 1923 with nothing more than the individual credit of its promoters. Almost sixty prominent Lindsay district growers are now members of the organization. The packing house was originally purchased from the Producers Fruit company, built in 1914 by the Randolph Packing company.

Ambrose Sharer of Northern Tulare county feels that he has made quite a profit from \$4 in one year, as the result of the purchase of twenty-five chicks last year. Only one chick of the number died. Sharer has spent \$39.30 for feed and during the year has sold \$46.97 worth of eggs and \$9.70 of dressed chickens. At the present time he has on hand thirteen hens valued at \$1.50 each and eleven 6-week-old chicks, valued at \$5.50.

Expecting to produce 25,000 gallon and half-gallon kegs of pickled figs, and an equal number of cases of canned figs, Henry Klute, fig canner, Merced, will take over the dismantled plant of the California Peach and Fig Growers' association within the next month, he announces. The plant will be known as the Island Packing company. Another plant is located at De Coto.

There have never been brighter prospects for a big grain yield on the Tulare lake bed than there are at present, according to the growers themselves. The entire 150,000 acres is in wheat and barley, the former predominating. Early-sown barley may be ready to harvest in April and wheat in May.

R. E. Boyle, general superintendent of the Fontana Farms company, announces that 125 acres in the Fontana district will be planted to citrus trees during April. An average of eighty trees will be set to the acre. Of this new planting of 10,000 trees 7500 will be grapefruit and 2500 Valencia oranges.

Most of the orange growers of Redlands have been busy of late plowing under the winter cover crops, for this is the time of year that these crops begin to compete with the trees for moisture and plant food. Once turned under, they provide food for the soil instead of using up what is there already.

Late rains appear to assure a bumper grain crop for the dry-land farmers in the Hemet district. For the past three or four years these unirrigated crops have not offered much encouragement for the growers, but this season the ground has been soaked thoroughly and the grain is well advanced already.

In the season of 1901-02, the Tulare County Citrus Fruit exchange shipped 131,854½ boxes of citrus fruit for which \$202,544.34 was received. In 1925-26, the exchange shipped 2,200,586½ boxes of citrus fruit and received for it \$10,156,821.97.

The continued rains in the Visalia district delayed the pruning of vineyards and orchards very greatly. However, the Tulare county horticultural officials believe the late pruning practiced here will not have any ill effects on growth or yield.

The cream check of Leonard Schmitz, a McFarland farmer, was \$54.50 for the last fifteen days, the cream all coming from seven cows. Mr. Schmitz has eighty acres of wild pasture in such good condition that he has fed but a ton of hay in the past month and a half.

Cotton planting has been delayed by late rains at Corcoran, but the soil is in excellent condition. Prices on cotton have advanced steadily and seem to be holding firmer, so cotton growers are feeling cheerful.

CALIFORNIA NEWS BRIEFS

A rat disorganized a parade at Santa Rosa recently, sent scores of women screaming into hysterics while strong men shouted in alarm. The parade was the culmination of Be Kind to Animals Week. Hundreds of boys and girls, surrounded by pet dogs, cats, goats, monkeys and such, comprised a six blocks procession. On the sides of the streets were gathered parents and onlookers. Charles Friedman, 9, was one of the proud marchers. His fondness for animals was displayed in four or five large, white-spotted Italian rats. They were in his pockets and clambered on his shoulders. At one of the busiest downtown streets, one of the rats, very tame and playful, leaped to the shoulders of a woman. She promptly went into hysterics, followed by every woman in sight. A wild scramble for altitude took place and the normal peaceful scene took on the appearance of a full blown riot. Charles is still looking for his pet.

More than 500,000,000 pounds of milk, or its equivalent in the form of manufactured dairy products, was required to supply the needs of Americans in 1926, in excess of this country's production, according to figures disclosed by the Federal Bureau of Agricultural Economics. In striking contrast to this adverse trade balance in the dairy industry, California total production increased and her per capita consumption likewise showed a gain for the year, it was revealed in a review of the statistics prepared for D. M. Dorman, president of the Crescent Creamery company. Every man, woman and child in the state last year consumed twenty-three and one-half gallons of milk, compared with twenty-two gallons in 1925, or a total gain of 7,000,000 gallons for the state's population. Total consumption in California in 1926 was 108,362,554 gallons, as against 101,705,518 for the preceding year.

Charles M. Schwab, head of the Bethlehem Steel Company, who is at Del Monte, declared that California's future depended on intelligent conservation of the state's natural resources. "Protect and replant your fire devastated forests," said Schwab. "Exercise every precaution in the preservation of your valuable watersheds. Conserve and put to use the flood waters which at present do thousands of dollars damage every year." Schwab said he found California prosperous and felt that the Florida boom would redound to the benefit of this state, because everyone who joined in the Florida rush would want to visit California.

Showing building activity of more than \$1,000,000 in excess of the figure for the same period in 1926, Los Angeles building permits for the first eight days of April soared to \$3,171,084, as compared with \$2,062,752 for April to date in 1926. A total of 1076 permits have been issued thus far this month, as compared with 868 in 1926. Not only was a sharp rise noted over the April period of last year, but the total for the first eight days this month is almost \$1,000,000 in excess of the corresponding eight days of March, 1927. During the March period, 976 permits were issued with a total valuation of \$2,252,227.

Although lettuce shipments have recently been low, other products are going out in car lots from Brawley. Cabbage is moving; carrots, grapefruit, greens and peas made up the bulk of the shipments. Cattle are beginning to show an increase, and a car of so-called "bootleg pigs," gathered from various valley points recently moved to Los Angeles. This is in marked contrast to the time when hogs were a bulk in outgoing shipments, while cars of green stuffs were scarcely known.

Warning that continued destruction of the state's watershed coverage will cut down the water supply so badly needed to promote irrigation projects, Governor Young, as chairman of the state committee, addressed an appeal to all agricultural associations in California to assist in spreading the gospel of fire prevention and reforestation during American Forest Week, April 24 to 30.

Redlands grows steadily judging from the growth of the postal receipts. For the first three months of this year the receipts at the postoffice here were \$17,560, as compared with \$16,462 for the same period last year. Every month so far this year has shown a gain, such a gain as would indicate a steady increase in population.

Southern Pacific trains will travel slowly when they go through Delano if the railroad obeys an ordinance ordered drafted by the city attorney by unanimous vote of the city trustees. The proposed ordinance would cut the speed of the train to eight miles an hour as a safeguard to children.

Quite an acreage of watermelons is being planted this year at Ballico, Merced county, considering that peaches and grapes and alfalfa are the staple crops for this vicinity. There is no question about being able to produce good melons, and early ones at that, but the great problem has been to be able to market them to advantage.

Voters of Modesto school district went to the polls April 12, to cast ballots for city governing officers, for three members of the board of education and on the proposition of \$330,000 for school improvements.

Dedication of the new Masonic Temple, at Yreka, Siskiyou county, the new home of Howard Lodge No. 37, of that place, was conducted recently.

One of the largest poultry plants in Tulare county is being developed by the Woodside Poultry association at Visalia. It is planned to care for 10,000 laying hens.

The new six-story structure for the York Rite Masons of Long Beach, is under construction and rising rapidly. The temple will cover all of the 125x150 foot lot. It is of modified Doric design.

Navel oranges have been going out steadily from all the packing plants at Pomona, over 200 cars having been sent east up to a recent date from the Pomona valley. Fifteen cars of lemons have been shipped.

An important industry is returning to Kings county in the center of the San Joaquin valley fruit belt, in the packing of raisins and other fruits. For several years there has been no packing of raisins in this county.

Construction of the new Owensmouth Christian Science church is well under way. The building will be of stucco, and 30x60 feet in dimension. It will be ready for occupancy within the next thirty days, it is announced.

An agreement between the state board of forestry and the Eddy Tree Breeding Institute of Placerville was reached whereby the Eddy organization will establish an experimental station at the state nursery in Davis.

That dairying is on the increase in the Turlock irrigation district is evidenced by the large number of thoroughbred dairy cattle being shipped in, over \$9,000 worth having arrived within the past ten days. Through the efforts of the Turlock chamber of commerce many of the Turlock farmers are planting alfalfa this season, with the view of stabilizing production.

Is the Valencia orange the crop to which the soil and climate of Orange county are most ideally suited, or will some other product of the soil creep in and crowd it from its golden throne? Can the Avocado be seriously considered as a candidate for future orchard supremacy? These questions are being asked in all seriousness by some well-known growers. Time will answer them.

Bids have been called for on the proposed new creamery to be erected in Visalia by the Knudson Laboratories, Inc., of Los Angeles. This building will be erected on a site on Goshen avenue along the Southern Pacific tracks. It will be thoroughly modern in every detail, constructed of concrete and steel. About \$40,000 or \$50,000 is expected to be expended on the first unit of the local plant.

Electors of the Vacaville Union High school district voted Wednesday April 20, on the question of issuing \$100,000 bonds to finance school improvements at Vacaville, Solano county. The issue was divided into two proposals, one providing \$25,000 for purchase and erection of equipment for a gymnasium, and another for \$75,000 to finance alterations and additions to the present school building.

San Diego will have approximately \$1,221,900 expended for additional telephone facilities in its exchange during 1927, according to officials of the Pacific Telephone and Telegraph company. It is estimated that 600,500 will be expended on additional local central office equipment, \$46,000 for long distance central office equipment, \$355,500 for outside plant equipment, and \$319,900 for equipment to be installed in subscriber's homes and offices.

The city of Sonoma having filed a complaint with the railroad commission alleging that the rates for electric light and power charged by that utility are excessive, the railroad commission has ordered the company to place in effect on and after April 5, 1927, reduced rates that will reduce the net return of the company to approximately 8 per cent per annum. The commission found that the company was earning in excess of 18 per cent per annum under the old rates.

Telephone service was inaugurated in Los Angeles in 1880. Of the seven original subscribers, four still appear in the telephone directory and are now large companies. The original directory was a small card. There are listings of 316,500 telephone in the Los Angeles Exchange section of the March 1927, directory. A room in the Baker block on Main street was the first home of the infant telephone company. Just thirty years ago the list of subscribers had grown to 3168.

George W. Foulke, 85 years of age, and still hale and hearty, is Elk Grove's oldest pioneer resident. He arrived at Elk Grove in September, 1853, as a boy after journeying across the plains in a covered wagon with his parents. Foulke can recall how Elk Grove received its name from the first settlers because of the large number of elk seen roving around in this vicinity. Only one other person in the same party of immigrants is still living. She is Mrs. A. C. Freeman of San Francisco.

W. E. Landon, San Dimas horticultural inspector, was recently summoned to visit the orange grove of C. E. Plummer, to discover the cause of the dying of a number of the trees. He investigated carefully and found nothing that would seem to be fatal to citrus, so he sat down to study the matter and as he lighted a cigarette the dead tree under which he sat burst into flames. It was discovered that a gas main runs along the edge of the grove, and it seemed probable that a leak in it accounted not only for Mr. Landon's experience, but also for the injury to the grove.

FACTS about used car allowances

MOST new car sales now involve the trading-in of a buyer's used car. More and more people are asking: "Why should my used car seem to have several values? . . . Why should dealers in different makes of cars offer me allowances differing materially? . . . Does the largest allowance offered mean the best deal for me?"

Here are basic facts:

- 1 Your used car has seemingly different values because competitive dealers are bidding to sell you a new car.
- 2 Your used car has only one fundamental basis of value: what the dealer who accepts it in trade can get for it in the used car market.
- 3 The largest trade-in allowance which is offered on your used car is not necessarily the best deal for you. Sometimes it is; but sometimes it is not.
- 4 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.
- 5 Judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your used car.

When you are ready to trade-in your present car, remember that after all you are making a purchase and not a sale. You are buying a new car and simply applying your present car as a credit toward the purchase price of the new car.

Why Bald So Young? Cuticura will help You

To prevent loss of hair. Dandruff, usually the cause of premature baldness, may be easily removed by regular shampoos with Cuticura Soap, preceded by touches of Cuticura Ointment. This treatment keeps the scalp clean and healthy and promotes hair growth.

Soap 25c, Ointment 25c and 50c. Talcum 25c. Sold every-where. Sample each free. Address: "Cuticura Laboratories," 23, Maiden, Mass.

Why He Succeeded

Ignored politically and professionally, during his lifetime, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. His pure herbal remedies which have stood the test for many years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a stomach alternative which makes the blood richer. It clears the skin, beautifies it, pimples and eruptions vanish quickly. This Discovery of Dr. Pierce's puts you in fine condition. All dealers have it in liquid or tablets.

Send 10 cents for trial pkg. of tablets to Dr. Pierce, Buffalo, N. Y., and write for free advice.

Diving Dog

Doris Pigeon of North Adams, Mass., has a "diving dog." Brownie, as he is named because of his color, likes to go swimming better than anything else. Doris says that one of his best stunts is to stand on his hind legs and dive into the water. Brownie does all the other "dog" tricks, such as "praying," sitting up, and speaking for his dinner, but Doris and her friends think that his "diving" stunt is entirely different from anything else that dogs usually do.—Washington Star.

Puts An End to Bunion Pains

No Need to Suffer Another Day Those Agonizing Torturing Pains.

There is one simple yet inexpensive way to reduce inflamed, swollen toe joints and get them down to normal and that is to apply Moore's Emerald Oil night and morning.

Ask your druggist or any first class druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if this wonderful discovery does not give you complete satisfaction you can have your money refunded.

Special note: People who want to reduce swollen or varicose veins should get a bottle of Emerald Oil at once. Applied night and morning as directed they will quickly notice an improvement which will continue until the veins and bunches are reduced to normal.

No Scientific Proof That Any One Race Has Superiority Over Another

By JOHN LANGDON-DAVIES, English Educator.

THE theory of Nordic supremacy is a method of whitewashing race prejudices. No evidence has been discovered by science to prove that one race is superior to another. There is no such thing as a pure Nordic race and there is no such thing as any pure race in Europe where complex racial mixtures have come to exist. Race is purely a means of classification and is similar to the letters on a card index.

Race prejudice exists because there is a certain point when our feeling of the universality of the brotherhood of man breaks down.

On the crowded islands of Great Britain we have learned to get on with people with as little friction as possible and we do not always find it necessary to distrust, fear, dislike and despise those who do not belong to our race.

In America there are many more groups which have not become a real part of the whole nation and in this great country there is a problem of race prejudice.

It has never been proved that any race is innately better than another. People are continually mixing race and culture. Race is hereditary and culture is something which comes to every individual from the fact that he has been born into certain surroundings.

There is nothing national or racial about language, music, art, philosophy or religion. When any group sets itself up as the chosen people of the universe then there will be trouble in the world. A feeling of racial superiority produces ill-feeling and opposition.

Women Play Large Part in Success or Failure of Conservation Projects

By MRS. ERNEST R. LATHAM, Federation of Women's Clubs.

Women do 87 per cent of the nation's buying. Just how and what they buy is an economic barometer and is an indication of their attitude toward conservation or extravagance.

The basic purpose of conservation is the maintenance of American standards of living. Secretary Hoover's broad program as announced in "ten major directions for national effort," reveals the close relationship of conservation to many stupendous issues and national undertakings. The keynote of Mrs. Sherman's administration, the American home, has called attention to the fact that the daily domestic use of materials and energy make the 26,000,000 homes of the nation a large factor in the problem of conservation.

More than half of all the hard coal and nearly 12 per cent of all the soft coal are burned in the homes. Of the 83,000,000 cords of wood burned annually as fuel, four-fifths or more are consumed in the homes.

What part are women taking in the struggle of science and industry to conserve these tremendously valuable assets? Are they being used wisely or wastefully? These are some of the questions which must be answered if women are going to bear their full share in the solution of the problems before us.

Education in Respect for Law Would Do Much to Check Juvenile Crime

By GEORGE M'DONALD, President Big Brother Federation.

Few children are ever told of the difference between childish pranks and law violation. If children had the seriousness of certain things impressed upon them early in school life there would be less juvenile crime. I believe we spend too much time on routine matters in school. Prevention and not prosecution is the biggest need in dealing with children who prove wayward. Get to them before they have to go to the reformatory or penitentiary. That is what the Big Brother federation is trying to do.

If I had my way every child would be encouraged to plant trees along the public highway and encouraged to see that those trees flourished and grew. No child engaged in that kind of activity can go far wrong. I would have them plant fruit trees and then between those fruit trees oak trees, so they could study the difference in them.

I believe in prosecution but I believe it should come in the case of children only after all preventive measures have failed.

Kiwanis, Rotary, Civitan, Optimist and other national bodies are more active than ever before. As the result, this year will be a happier one in thousands of homes safely removed from the shadow of wrongdoing.

Health Cults and Physical Hero Worship Detrimental to College Students

By PROF. G. T. STAFFORD, University of Illinois.

Blame for the deplorably poor health of the college student should be placed on the parent who follows health cults and the student himself who, as a hero-worshiper, has false standards of physical perfection.

The grip of various cults in this country is amazing when you consider this is the Twentieth century. Thousands of parents belong to such groups.

Is there any wonder that students who do not have adequate instruction in health and health habits in their classes in schools—due to the squeamishness of us moderns in many instances who believe that certain facts about the body and the body's health are too indelicate to be discussed by trained instructors—come to college with distorted standards of perfection.

The average college freshman—in all the glory of his flat feet, falling or fallen arches—models his idea of physical perfection chiefly on muscular development. He comes to school bound to be another "Red" Grange. The star athlete to him is the perfect physical specimen.

Paid Advertising in Newspapers Vital to Work of Modern Church

By WALTER IRVING CLARK, Presbyterian Publicity Director.

Pastors who have regularly used newspaper ads find that they are a good investment. These ads should not be merely perfunctory announcements of sermon topics, but should be stimulating enough to inspire readers to desire to attend church and should also be thought-awakeners for those who do not attend. There should be a real message for conscience and soul in every ad.

A church that cannot afford much money for promotion may join with other churches in the community in a united newspaper appeal, using liberal effective display space. If the church will pay for live newspaper advertising it will find that newspaper advertising will pay the church.

The KITCHEN CABINET

(© 1927, Western Newspaper Union.)

The heights by great men reached and kept
Were not attained by sudden flight;
But they, while their companions slept,
Were toiling upward in the night.
—Longfellow.

WHOLESALE GOOD THINGS

Now that fresh eggs are plentiful, we enjoy all the tasty dishes which may be prepared from them.

Mexican Scrambled Eggs.—Roast one dozen fresh green peppers, remove the skin and seeds and chop, then boil in a very little water until tender; season well with butter. Beat six eggs, add seasoning and the peppers and cook for a moment in a little butter.

Spanish Meat Dish.—Arrange a layer of thinly sliced potatoes in a well buttered baking dish, add a thinly sliced onion, over this a layer of sliced cold roast beef, steak or hamburger. Cover with a cupful or two of thick tomato and place in the oven to bake; when ready to serve garnish with two or three tablespoonfuls of cooked peas over the top.

Mexican Sauce.—Cook one onion finely chopped in two tablespoonfuls of butter for five minutes. Add one red and one green pepper, one clove of garlic, each finely chopped; add two tomatoes peeled and chopped. Cook fifteen minutes, add one teaspoonful of Worcestershire sauce, a few dashes of celery salt and salt to taste.

For Sunday night supper a bowl of popcorn and milk is delicious. It may be ground if preferred.

Popcorn Biscuit.—Sift four teaspoonfuls of baking powder, one teaspoonful of salt, the same of sugar, one cupful of wheat flour, one-half cupful of corn flour, four tablespoonfuls of shortening and one cupful of freshly ground corn. Add enough milk to make a mixture to roll out. Cut into rounds and bake on a hot griddle, turning when one side is brown to brown on the other. They may be baked in the oven if preferred. This recipe makes one dozen biscuits.

Popcorn Soup.—To one quart of milk brought to the scalding point add two tablespoonfuls each of butter and flour well cooked together. Add one cupful of finely ground popcorn and serve garnished with a spoonful of freshly popped whole kernels.

Stuffed Onions.—Prepare as many onions as there are persons to serve. Parboil until tender but unbroken. Drain, remove the centers and mix with butter, chopped ham and seasoning, a little cream and the yolk of an egg. Fill the onions with this mixture and place in deep dish and bake, basting with cream during the baking. Cook covered until nearly done, then remove the cover and put a spoonful of well buttered crumbs on the top to brown.

Food We Like.

If the turkey is not at hand, any fowl may be used for the following sandwiches:

Turkey Sandwiches.—Chop fine three heads of crisp celery. Take three cupfuls of cold cooked turkey from the breast, or light meat. Blanch and shred one and one-half cupfuls of almonds. Mix all lightly together, season with salt and pepper and moisten with mayonnaise. Cut thin slices of white bread and spread with pimento butter. Spread half the slices with a thick layer of the mixture and the remaining slices with crisp lettuce, spread with mayonnaise. Put together in pairs, press edges together and cut into three-inch strips. Garnish each sandwich with stars cut from pimientos. At the point of the star place a tiny pearl onion.

Tea Sandwiches.—Spread thin unsweetened wafer crackers with quince, orange marmalade, or any fruit jam. Set another wafer over the one spread with fruit and arrange in a dainty basket or a plate covered with a lace paper doily. Serve with tea, cocoa or chocolate.

Orange Meringue Pudding.—Slice three oranges in a pudding dish, sprinkle with sugar to taste. Make a custard from the yolks of three eggs, one tablespoonful of cornstarch, one-fourth of a cupful of sugar, salt, vanilla and one cupful of milk. Cook in a double boiler until smooth and well cooked, then cool and pour over the oranges. Beat the whites of the eggs until stiff, add one tablespoonful of orange juice and one tablespoonful of sugar. Heap lightly on the pudding and set into the oven to brown the meringue.

Banana Cream Pie.—Bake a rich pastry shell, place on a chop plate and fill with sliced bananas; over this spread sweetened and flavored whipped cream.

Rolls Jelly Cake.—Beat three eggs until light, add one cupful of sugar, two tablespoonfuls of cold water, a pinch of salt, stir in one cupful of flour sifted with two teaspoonfuls of baking powder, adding the flour gradually. Bake in a dripping pan well greased. Turn out on a cloth wrung out of cold water, spread with jelly and roll; sprinkle with powdered sugar.

Aged Couple, Suffering Acutely from Rheumatism, Neuritis and Indigestion, Find Quick and Permanent Relief in Tanlac and Praise It Highly

"From the day I was fortunate enough to line up with Tanlac," says Mr. Emil Langhans, ex-cavalryman and retired customs official, "it has kept my health and strength up to my highest standard."

Sitting in his comfortable home at 2219 107th Avenue, Oakland, Calif., Mr. Langhans told how Tanlac had rebuilt strength and vigor for himself and his charming wife. "Tanlac worked wonders for my wife," he said. "She suffered from high blood pressure, neuritis and general run-down condition. Tanlac relieved her."

"I had sciatic rheumatism—suffered for five years with it—so that I could sleep but little, on account of the pain. Kidney trouble, indigestion and loss of appetite had reduced my strength to a low ebb."

"Since taking Tanlac my health, as well as that of my wife, has been remarkable. Though I am retired, I can resume my old work any time. No rheumatism—nor kidney trouble—in the past two years. I never miss an

opportunity to praise Tanlac."

Old and young, from coast to coast, unite in praising this famous remedy of nature. Made of roots, barks and herbs, according to the exclusive Tanlac formula, it is an amazing tonic medicine. All good druggists sell Tanlac. Get a bottle today! Over 40 million bottles sold.

Takes Out all pain instantly

CORNS

Dr. Scholl's Zino-pads stop all pain quicker than any other known method. Takes but a minute to quiet the worst corn. Healing starts at once. When the corn is gone it never comes back. If new shoes make the spot "touchy" again, a Zino-pad stops it instantly. That's because Zino-pads remove the cause—pressing and rubbing of shoes.

Dr. Scholl's Zino-pads are medicated, antiseptic, protective. At all druggist's and shoe dealer's—35c.

WANTED—Clean cotton rags at Register Office.

NILES

Boy Scout Court of Honor of Washington Township met in the court room of Judge Norris at Centerville Tuesday evening to award merit badges. Boys from all scout troops in the township were in attendance.

The Boys' Service Club of Washington High school entertained their mothers at a formal dinner in the school house Wednesday evening.

Friday afternoon the high school baseball team will meet Hayward on the home field. Chances are about even. A close game is expected.

Next week has been designated as "Public Education" week. All parents are requested to visit the schools if possible. A special program has been planned for the Township for Wednesday evening to be held in the Newark school auditorium.

On April 28, the Niles theatre is putting on a special show for the benefit of the Washington Township Parent-Teacher association. The benefit is only on the advance sale of tickets. Title of the picture is "The Desert Valley". Judge Jacob Harder of Hayward will give a five-minute address on some educational topic.

Mrs. Amedeo Salvadorini and baby have returned home from the San Jose hospital, well and happy.

Marie Durante is assisting in the Niles postoffice during the absence of the postmistress, Miss Kell, who is suffering with the flu.

It has come to be commonplace among sporting and automotive authorities that whenever a new speed or endurance record is made, whether it be on the speedway, in the air or on water, Richfield is the gas(l)ine used, says Fred Curtis White, of the Richfield press bureau.

Mrs. Emilie Chittenden of the Belvoir Hotel left Wednesday morning for Honolulu where she will visit for several months.

Judge Silva has moved his office to the City Hall and the quarters vacated will be occupied by Bert Salveria, the barber.

"It pays to advertise in The Register," MacPherson, the jeweler, optometrist and dealer in magazines, will tell you if you ask him about the splendid Easter trade he has just experienced. He reports that business was unusually good.

Niles is proud of her fertile soil, demonstrated again by the report that a farmer sold during the past week nine sacks of peas for a total price of \$65.00, these peas having been raised on the hills above the city on property owned by Ed Rose, business man here and in Centerville.

Cooperation of the residents of Washington Township with the league baseball teams is urged in the announcement of a dance to be given at Decoto, Saturday evening, April 30 by the Decoto team. Money raised by this event will be used to pay expenses of the team. Several games have been arranged with cities in central California.

Residents of Niles are looking forward to the Holy Ghost celebration to be held at Alvarado, May 14 and 15. A. S. Mello, in charge of arrangements announces that fireworks, parades and a dance will make up the program.

Miss Madelyn Avila has been selected queen of the annual celebration. The first parade will be held Saturday when the crown is taken from a private home to Santa Anna hall and on Sunday morning a procession will follow the queen to the church for the coronation. The fireworks will be displayed early Saturday evening, followed by the dance in the I. O. O. F. hall.

One of the outstanding events planned for the local community and their friends from nearby towns will be the dinner dance to be given under the auspices of the Washington Township Post of the American Legion at the popular Niles roadhouse, the Garden of Allah, on the evening of April 26.

Members of the committee in charge of arrangements are: Walter Martenstein, E. D. Bristow and Roland Bendel.

Approximately one thousand delegates and friends of the Modern Woodmen of America from the surrounding country are expected to attend the rally to be held in Hayward, Saturday, May 28, under the

Switching Station Is Distribution Base

(Continued from Page One)

San Jose would not permit of the expansion that would doubtless be necessary for a large center of high-voltage lines. For this reason the company bought a large level field three miles southeast of Newark and built thereon the big substation that serves not only San Francisco, but the San Francisco peninsula, the Santa Clara valley and the East Bay district.

Various additions of costly equipment have been made at Newark switching station since it first went into service. As an example, there has been added to its equipment great synchronous condensers, which, by holding the voltage more uniform than was possible before, lessen the transmission losses on both incoming and outgoing lines.

Additional land has been purchased to provide room for 220,000-volt lines, which eventually will run from Vaca-Dixon high-voltage switching station to Newark by way of Antioch and Livermore. In short, Newark substation, in thus taking care of constantly increasing demands, has been proven necessary to the efficiency of the southern part of the P. Q. G. & E. system, as Vaca-Dixon has to the northern.

DECISION IS EXPECTED ON WAR MEMORIAL

As a representative of the Niles Chamber of Commerce, E. Dixon Bristow will go to Oakland this week for a conference with the board of supervisors in an effort to get action on the proposed war memorial building for Washington Township.

Berkeley and Alameda are seeking memorials this year and the total cost of these buildings is in excess of the amount appropriated for this purpose in 1927. As neither city can get its memorial as long as the deadlock continues, an effort is being made to reach an agreement through which one of these and the Washington township memorial can be built this year and the other constructed next year out of funds to be appropriated in 1928.

Unless such an agreement can be reached, Washington township may lose its memorial. A site for the building has been donated, provided that the building is erected this year.

auspices of the Hayward Camp.

Plans are being made for parades, an all-day program at Booster Park and a dance at night. Details will be announced later.

Contrary to ordinary circumstances, taking "naught" away from something made a great deal of difference in the advertisement for Jones and Ellsworth, real estate and insurance company, appearing in The Register last week, as the ad read, "Special policy pays for loss of life \$150.00," which was giving life a pretty cheap value. The correct reading was:

"Special Automobile Accident Policy in Strong Conference Company pays for Loss of Life \$1500.00; Pays weekly indemnity \$25; Pays Hospital, Nurse and Doctor; Only \$5.00 per year, etc.—"

Miss Kell, postmistress for Niles, has been confined to her bed for the past week with influenza.

J. Charles Johnson, manager of the publicity department of the Pacific Gas & Electric Co., was an early caller on the Township Register, this morning.

FISHING TACKLE DISPLAY IS GREAT ATTRACTION

Abrott's window display of fishing tackle attracts general attention of passers by. May 1 the fishing season begins legally and a little later the Township Register will probably have piscatorial prevarications galore to print, related by local anglers.
